

 THE MERCY BLUEPRINT

A Love Letter from the Founder of ShibaHumanityhub • Since November 2025

Dear Friend,

I want to be completely honest with you.

I can't stop thinking about the quiet pain happening in this world right now.

Children lying in hospital beds surrounded by machines, still daring to dream of something that might bring them a moment of joy.

Senior dogs who gave their whole lives to humans now spending their final days in cold, lonely kennels.

Foster kids waking up on Christmas morning with nothing but silence.

Families forced to choose between paying rent and buying the medicine their child desperately needs.

These aren't just stories. These are real souls. Real hearts. Real lives.

And for too long, we've accepted that this is just "how the world works."

I refuse to accept that anymore.

That's why we built ShibaHumanityhub.

We believe crypto can be so much more than speculation and hype.

It can be the most powerful, transparent, and loving force for good the world has ever seen.

Our mantra is simple, but it means everything to us:

People helping people helping people.

Every single transaction saves lives.

We didn't just create another charity.

We created a **perpetual mercy engine** on the blockchain.

Two beautiful tokens working in perfect harmony:

\$NIBBLES powers 17 global animal rescue, sanctuary, therapy, and healing programs.

\$hopeseed powers 13 human impact programs focused on children, families, and forgotten communities.

Together, they form a living circle of mercy. Every time someone buys, sells, or simply holds either token, real good quietly flows into the world — automatically, transparently, and forever. No middlemen. No bureaucracy. Just pure, on-chain love in action.

Total Supply: 1,000,000,000 (1 Billion each)

Transaction Tax: 2%

- 1% → Automatic SHIB burn (permanent ecosystem strength)
- 1% → HumanityHub Impact Wallet (100% goes directly to the 30 live programs)

No team wallets. No hidden allocations. No large unlocks. Everything is built for real utility and real giving from day one.

This is where it gets beautiful. Every program was born from real pain and real love.

\$NIBBLES Programs – Mercy for Animals

From pulling dogs off death row, to golden years retirement homes, therapy dog networks, disaster response K9 units, prison rehabilitation programs, and planting legacy Sequoia trees when they cross the Rainbow Bridge... every program honors life that society had overlooked.

\$hopeseed Programs – Mercy for Humans

Orphan Christmas celebrations, Guardian Angel Wallets that grow with foster children, Dream Room makeovers for kids in hospital beds, Miracle Fight Funds for life-saving treatment, No Hungry Weekend Backpacks, and lifelong support bridges for special needs families.

These aren't random acts of charity.
They are a complete ecosystem of love that turns pain into hope, dignity, and joy.

We are not here to build another charity that depends on donations and burns out.

**We are building something that can run forever —
powered by people who believe in better.**

Every holder, every transaction, every share matters. You don't need to be rich to change lives. You only need to care.

Welcome to the Circle of Mercy

Thank you for reading this with an open heart.

Whether you hold \$NIBBLES, \$hopeseed, sponsor a program, or simply share this story — you are now part of something real.

**People helping people helping people.
Every transaction saves lives.**

With deep love, unbreakable belief in humanity, and tears of hope in my
eyes,

The ShibaHumanityhub Team
Since November 2025
